Section H (4 x 2m)

Comprehension Open-ended

Read the passage below and answer questions 39 to 42. Your answers must be based on the passage.

Two cats were rummaging through the dustbins in a park. It had been days since they had last eaten. Suddenly, they spotted a loaf of bread lying beneath a tree. With a last ounce of energy, they pounced on it and grabbed the bread at the same time.

"It's mine as I stepped on it first," claimed one cat.

5

"I saw it first and so it belongs to me!" said the other cat.

A monkey sitting on the branch of the tree heard their quarrel. He scurried down and offered to help the cats solve their problem. Gladly, they accepted it.

The monkey smiled and broke the loaf of bread into two pieces.

10

However, one piece was bigger than the other. So, he took a bite from the bigger piece in an attempt to make both pieces equal. Unfortunately, the bite he had taken was too big and the bigger piece now became smaller than the other. The two cats sat in front of the monkey. They watched in horror as the bread continued to shrink in size with each of the monkey's bite. When the monkey had finished the entire loaf, it jumped onto the tree and disappeared.
