15. The title of this book is bugs'.

16. What do you think a bugs life is like?

17. the book contains wonderful
photographs.

BLANK

PAGE

Section D: Comprehension

Read the passage. Your answers must be based on the passage.

Tina was a bullfrog tadpole. She lived in the lily pond. With her brown colour and special spots, Tina blended with the muddy bottom. Predators could not find her easily. For several weeks, Tina would hide from the baby dragonflies. These baby dragonflies were one of Tina's predators. They lived in the pond too. One day, the baby dragonflies grew into adult dragonflies and flew away. They never returned to live under the water again.

One year later, in spring, Tina turned into an adult bullfrog. She enjoyed hopping around on the grass near the pond. She reached out with her tongue and ate a dragonfly which hovered near the surface of the pond. She continued to live near the lily pond. Soon, Tina laid her own eggs at the same pond and the cycle continued.

Adapted from *And The Bullfrog Sings: A Life Cycle Begins* by David L. Harrison

Answer the questions below.

18. What kind of tadpole was Tina?

Tina _____

19. Put a tick (✓) in the box to select the correct answer based on the passage.
