Section D: Comprehension (5 marks)

Read the passage carefully and answer Questions 26 to 30. Your answers must be based on the passage.

The insect world includes thousands of different types of dragonflies. They come in a variety of colours like red, blue, and green. Some of them have spots or stripes on their wings. Darting through the garden, they may not look like fierce hunters, but they are. Studies show that they are one of the most deadly hunters on Earth.

Dragonflies feed on smaller insects such as moths, flies, and mosquitoes. They grab their prey with their feet while in flight. This means they need to be swift. In fact, **these acrobats** rank as the fastest of all flying insects. A dragonfly in hot pursuit of a meal can fly as fast as up to 56 kilometres per hour and they are able to catch most of the prey that they target.

The dragonfly's skills include more than speed. Their eyes are made of thousands of tiny lenses that take up most of the space on their heads. These lenses give them super sight. Their ability to sense motion and detect movement in almost all directions is because their eyes and brains are naturally tuned to be able for them to do so. Therefore, dragonflies can see a meal coming from almost any direction. The only blind spot for an insect to hide is right behind a dragonfly. This insect hunter has a big appetite. One dragonfly eats up to a hundred mosquitoes in a day and this makes them a welcome garden guest. Due to their great appetite and swift speed, dragonflies wolf down their meals while still in flight!

Section F: Comprehension (5 marks)

Read the passage carefully and answer Questions 26 to 30. Your answers must be based on the passage. You must write in complete sentences.

"I didn't do anything!" Robert yelled, retreating into a corner. "I didn't do anything and you can't prove that I did!" He was seething with fury. "Give us a break, Robert!" I said, moving closer to him. "I know you stole the king's ring. I saw you taking it from the king's room. Now, where did you hide it? Stop denying and just cough it up already."

5

Just then, Robert's face turned red and he bent over, grasping his knees. Dry rasping sounds came up from somewhere deep in his throat. He sounded like he was choking on something.

I rushed towards Robert to see what was going on. Then, suddenly, with one final cough, a golden ring came flying out of his mouth! It flew across the room, spinning through the air as if in slow motion. Together with it, Robert's spit also flew in every direction.

10

Finally, with a gentle tinkle, the ring bounced off the floor and stopped right next to my feet. "Hey, you didn't have to do exactly what I said. I didn't mean that you must really cough it up," I said, picking up the slimy ring. I took another look at Robert before I left. He was grimacing in pain and groaning miserably.

15

"Serve you right," I muttered as I walked through the door.
